The products manufactured by the company mentioned above are paper and board grades in different grammages which are used for food packaging as well as for the manufacture of toys.

They were examined by us according to the

"Methoden zur Untersuchung von Papieren, Kartons und Pappen für Lebensmittelverpackungen", Stand 2008, entsprechend der Vorschrift Nr. 80.56 in der Amtlichen Sammlung von Untersuchungsverfahren nach § 64 des Lebensmittel- und Futtermittelgesetzbuchs - LFGB,

("Methods for testing papers and boards for food packaging", state of 2008, corresponding to the method no. 80.56 within the Official Collection of Test Methods according to § 64 of the Foodstuffs and Animal Feed Code - LFGB),

for the used raw materials, fabrication additives and special paper finishing agents as well as for the release of substances which might endanger health.

In addition, the migration of certain elements was examined according to the DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of August 2018, and regarding the absence of prohibited amines and colorants according to the DIN EN 71, part 10 "Safety of Toys, Organic chemical compounds – Sample preparation and extraction", state of March 2006, as well as to the DIN EN 71, part 11 "Safety of Toys, Organic chemical compounds – Methods of analysis", state of January 2006.

Furthermore, the content of heavy metals was examined according to the Directive 94/62/EC of the European Parliament and of the Council of 20 December 1994, on packaging and packaging waste, Official Journal of the European Communities L 365/10 of 31 December 1994, last amendment by the Directive (EU) 2015/720 of the European Parliament and of the Council of 29 April 2015, Official Journal of the European Union L 115/11 of 6 May 2015,

and the Model Toxics Legislation as developed by the Source Reduction Council of CONEG of December 14, 1989, last modification of December 2008.

The paper and board grades are in compliance with the rules of the Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, modified by app. no. 5.17 of the regulation (EC) No 596/2009 of 18 June 2009, Official Journal of the European Union L 188 of 18 July 2009, article 3,

as well as of the Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 3. Juni 2013 (BGBl. I S. 1426), zuletzt geändert durch Artikel 1 des Gesetzes vom 30. Juni 2017 (BGBl. I S. 2147), §§ 30 und 31, (Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 3 June 2013 (BGBl. p. 1426), last amendment by article 1 of the act of 30 June 2017 (BGBl. I p. 2147), §§ 30 and 31),

and are approved according to the

BfR-Empfehlung XXXVI. Papiere, Kartons und Pappen für den Lebensmittelkontakt, neu-gefasst durch 62. Mitteilung, Bundesgesundheitsblatt 14 (1971) 83, zuletzt geändert durch 221. Mitteilung, Bundesgesundheitsblatt 61 (2018) 236, Stand vom 01.09.2017,

(BfR Recommendation XXXVI. Paper and board for food contact, recasted by 62<sup>nd</sup> Announcement, Bundesgesundheitsblatt 14 (1971) 83, last amended by 221<sup>st</sup> Announcement, Bundesgesundheitsblatt 61 (2018) 236, as of 1 September 2017).

Furthermore, the products are in compliance with the demands of the

DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of August 2018,

and of the

DIN EN 71, part 9 "Safety of Toys, Organic chemical compounds – Requirements", state of September 2007.

Furthermore, they fulfill the demands of the

Directive 2009/48/EC of the European Parliament and of the Council of 18 June 2009 on the safety of toys, Official Journal of the European Communities L 170/1 of 30 June 2009, last amendment by the Commission Regulation (EU) No 2015/2117 of 23 November 2015, Official Journal of the European Union L 306/23 of 24 November 2015, article 10,

for scraped-off toy materials regarding their chemical properties.

Moreover, they are in compliance with the demands of the

Directive 94/62/EC of the European Parliament and of the Council of 20 December 1994, on packaging and packaging waste, Official Journal of the European Communities L 365/10 of 31 December 1994, last amendment by the Directive (EU) 2015/720 of the European Parliament and of the Council of 29 April 2015, Official Journal of the European Union L 115/11 of 6 May 2015,

and the

Model Toxics Legislation as developed by the Source Reduction Council of CONEG of December 14, 1989, last modification of December 2008,

regarding the content of heavy metals.

Thus the paper and board grades **Magno Natural, Magno Plus Gloss and Magno Plus Silk** according to the sample material submitted may be used safely for food packaging as well as for the manufacture of toys. They may stand in direct contact with dry and fatty foodstuffs. Moreover an application for toys is approved, as long as the toy is not intended for the use by children under 36 months or intended to be placed in the mouth.

This certificate of compliance has a validity of 2 years and consists of 5 pages. It was subsequently modified on 18 February 2019.
